

Is paper-based AP taking over your life?

Take it back with AP automation

Did you know...

70%

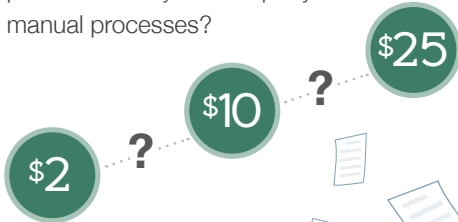

of companies process more than 1/2 of their invoices on paper?

Think manual processing is not costing you?

Think again.

Do you know how much you pay per invoice for your company's manual processes?

How about the monthly cost for an average 10,000 invoices?

10,000

In 1 month, the average company spends over

\$40,000

on invoice processing... (on the low end)

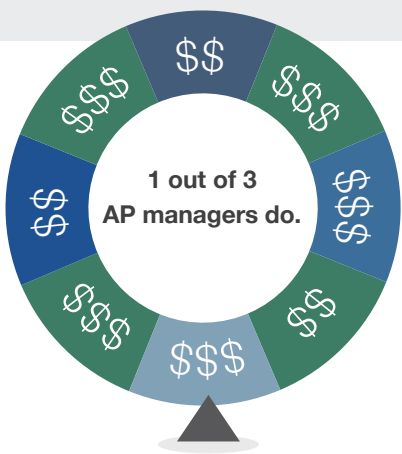

The per year average costs of invoice processing alone could be up to \$3 million

Would you entrust your company's resources to this

Game of Chance?

29% of AP managers don't know how much they spend on invoice processing.

Average cost of processing an invoice with low or no automation... **up to 20x greater**

Your paper-based world is not a very efficient one.

54%
Fewer lost or missing invoices

51%
Improved vendor satisfaction

46%
Reduction in FTE/Processing costs

45%
Increased on-time payments

42%
Better visibility across the transaction lifecycle

36%
Increased ability to capture discounts

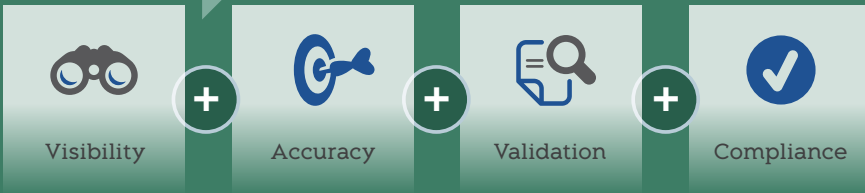

Research shows more companies plan to **implement invoice automation** over the next year to reap a multitude of benefits...

Skip the game of chance – **Reduce costs by as much as half.**

Solution

Capture Workflow Integration
