

Manufacturing a Better Payment Process

Manufacturing shop floors are now characterized by the Industrial Internet of Things (IIoT), smart manufacturing, and intelligent automation. Manufacturing Accounts Payable (AP) departments, however, still struggle with serious inefficiencies.

According to Strategic Treasurer, the **top five challenges** impacting manufacturing organization when paying vendors are¹:

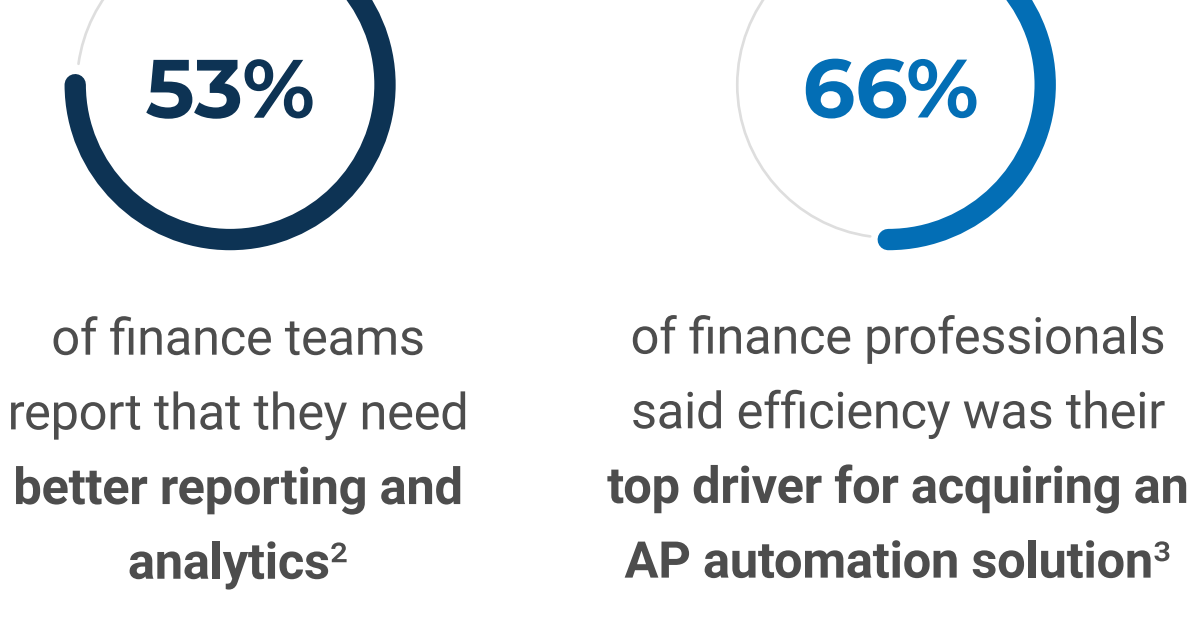

- 1** Managing and updating vendor bank account details
- 2** Timely approval of invoices and payments
- 3** Difficulty capturing early payment discounts due to slow approvals
- 4** Missing vendor information
- 5** Manual workflows and excessive delays caused by legacy payment processes

There, it's no surprise that...

HOW MANUFACTURING COMPANIES ARE TRANSFORMING AP

Process Automation

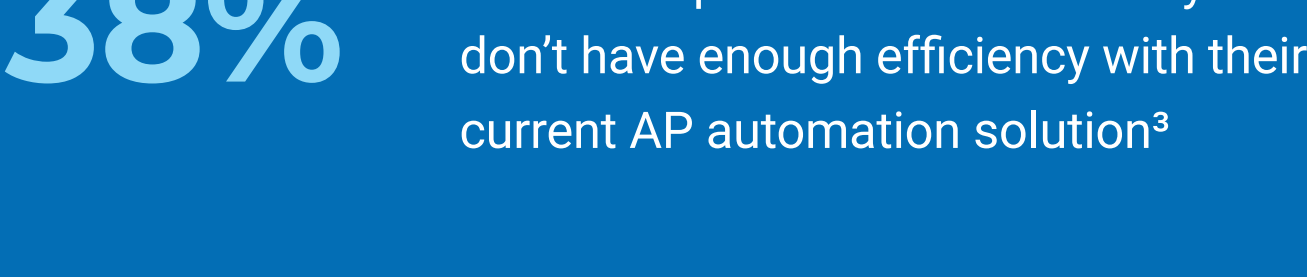

Digital Payments

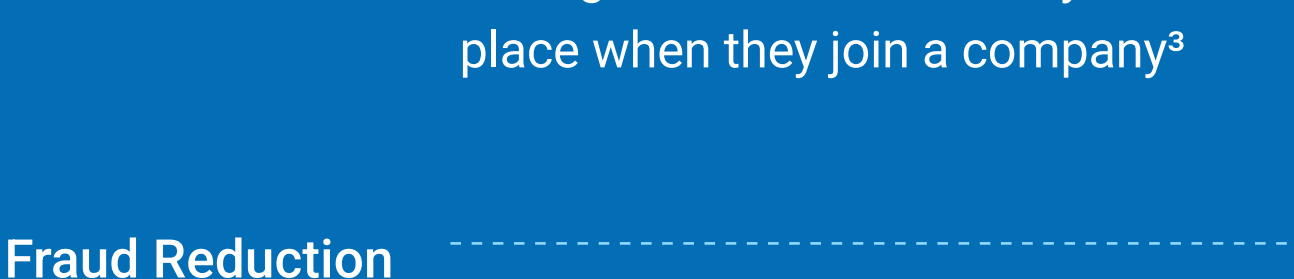

TOP BENEFITS OF DIGITAL TRANSFORMATION IN MANUFACTURING AP

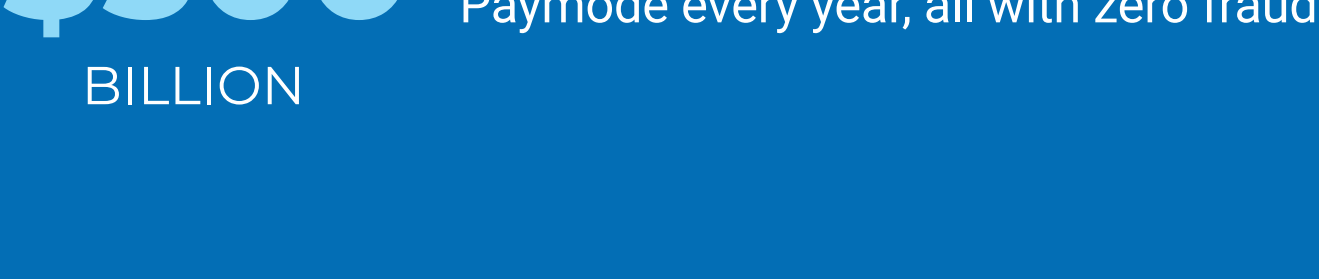

Time Savings

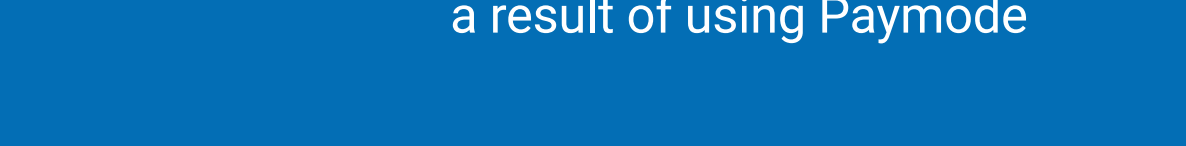

Data Visibility

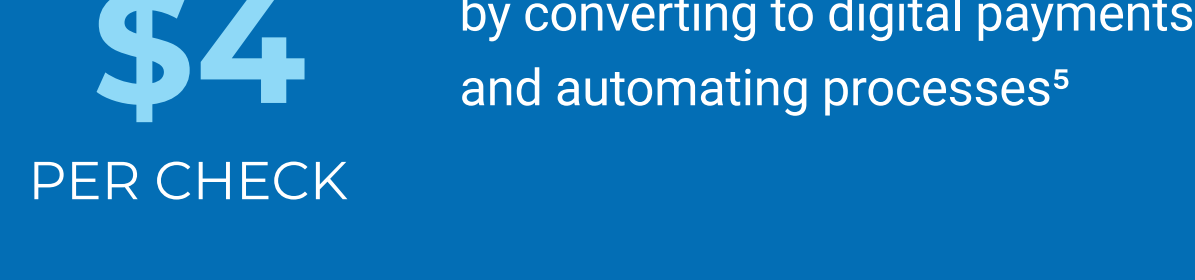

Fraud Reduction

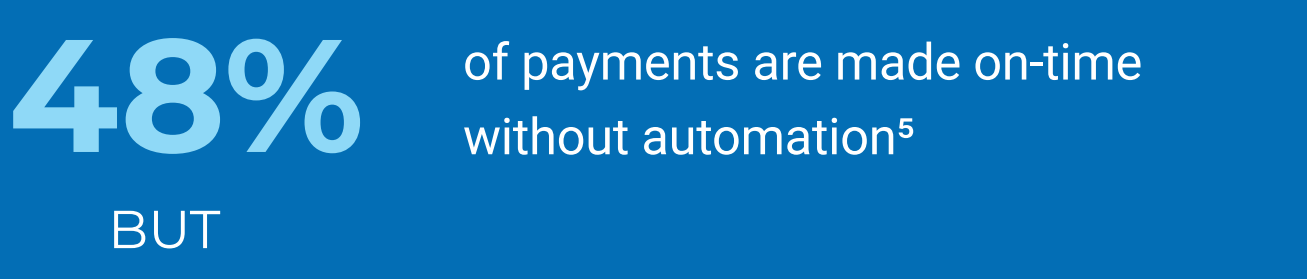

Vendor Relationships

Cost Savings

Late Fee Elimination

REVENUE GENERATION

Cash-back rebates on ACH and virtual card spend lets AP generate thousands of dollars in annual cash back rebates.
