# Bottomline®

## Cut Manual Work with Automated Payment File Transfer

Increase speed and reduce errors in your payments processing

## Still Uploading Payment Files Manually? Here's What It's Costing You.

Manual payment file uploads are laborious. They slow your team down, invite costly errors, and keep you stuck in the weeds instead of focusing on growth.

**40%**

You're not alone: **40% of UK firms still process huge volumes of financial data by hand.** That's a lot of wasted hours—and missed opportunities.

## Let Bottomline's Automated Bacs File Transfer Do the Heavy Lifting

Bottomline securely moves your payment files and Bacs reports into our processing platform, so your team can finally focus on what matters—analysis, reporting, and driving your business forward.

## Key Benefits of Automated Bacs Transfer

- **Improve speed and efficiency** – Automated transfers process files much faster than manual uploads, accelerating payment cycles and reporting

- **Reduce manual errors** – Consistent and accurate data handling mean fewer costly errors

- **Protect sensitive data** – Automated workflows mean fewer eyes on sensitive data, reducing insider risk and ensuring encryption standards are applied

- **Enable scalability** – Automation can handle large volumes of transactions effortlessly, without adding headcount

- **Enhance compliance and auditability** – Automated processes generate detailed logs, making regulatory reporting and audits easier and more reliable
