DNB Bank

The DNB Group is Norway's largest financial services group and one of the largest in the Nordic region in terms of market capitalization. DNB is a leader across diverse financial services. The group offers a full range of banking services, including loans, savings, advisory services, insurance and pension products for retail and corporate customers. In addition, DNB is Norway's largest internet bank with more than 1.3M users across multiple sectors and industries.

With over 220,000 corporate clients globally, DNB decided to rollout a digital treasury solution in a phased approach internationally. To achieve this, DNB required a treasury solution that would:

- Meet specific Nordic banking and regulatory requirements at time of launch with the added ability to be responsive and easily adaptable to other markets — all on one platform
- Provide a single software engine to deliver treasury solutions that would make DNB's corporate banking clients more efficient
- Be compatible with DNB's existing online banking portals
- Support DNB's end-user's multi-bank banking structure, not just those that bank with DNB
- Have the ability to be deployed quickly and en masse

As the leader in on-demand, high-performance, digital treasury solutions, only Bottomline TreasuryXpress was able to deliver on DNB's unique and complex requirements.

"Our clients trust us to deliver solutions that make their banking and treasury management easier. Bottomline provides the engine that allows us to do this. We chose Bottomline TreasuryXpress because of the quality of their solution as well as their flexibility. By partnering with this leading technology innovator, we will continue to add valuable treasury services to our clients now and in the future."

– Anders Grevstad, Executive VP Category and Transaction Banking at DNB Group
