

GLOBAL PAY CONNECT

Connect, Protect and Optimize Payments

One platform that connects you to global networks and streamlines the critical processes behind every payment.

GLOBAL PAY CONNECT

One Platform. Total Control of Your Payments Future.

If Your Payments Connectivity Is Still Fragmented, It's Slowing You Down

Today's banks and financial institutions are expected to do more than simply move money.

They must connect seamlessly across payment networks while staying compliant, preventing fraud, ensuring resilience and leveraging AI-driven intelligence that transforms payments beyond message delivery.

Doing so with disconnected systems leads to rising costs, operational inefficiencies and unnecessary risk.

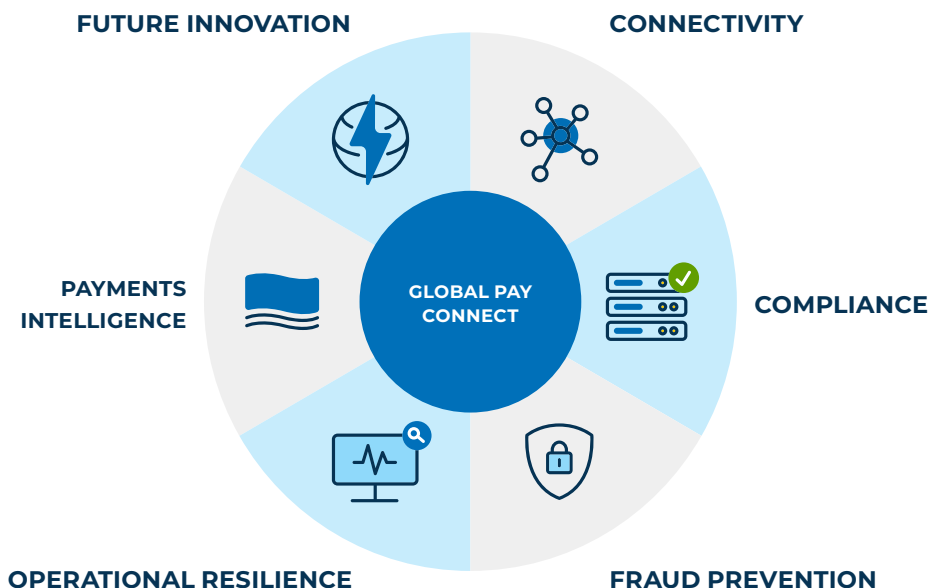

**Transform payment operations with a cloud-based platform
enhanced by AI and designed for the future.**

Run Payments Operations Smarter and Adapt Faster

Unify payments and financial messaging to simplify operations, reduce costs, accelerate innovation and deliver the seamless, reliable experience your customers expect.

Connect Beyond Schemes. Be Ready for What's Next.

Bring essential processes together in a single platform, built for today's payments and tomorrow's innovations.

Global Pay Connect is the platform that gets – and keeps – you ahead.

OPTIMIZE

Reduce complexity with a modern approach across schemes, channels and networks.

INNOVATE

Drive transformation with AI-powered automation, intelligence and API integrations.

CONNECT

Reach more payment rails worldwide, spanning established and emerging networks.

PROTECT & COMPLY

Reduce fraud, strengthen controls, and stay ahead of evolving payment services regulations.

Tackle What's Holding You Back with Modern Payments Infrastructure

YOUR DAILY CHALLENGE	HOW GLOBAL PAY CONNECT HELPS
Multiple systems for payments, messaging and connectivity create complexity and operational silos	Consolidate operations into a single platform
High infrastructure, maintenance and operational costs that drain resources	Automate workflows, reduce manual effort and lower the costs of operations
Evolving fraud threats and regulatory demands increase risk and place pressure on teams	Reduce risk with built-in monitoring, governance and regulatory support
Emerging payment rails, including blockchain, digital assets, real-time payments and other new technologies make modernisation complex	Support traditional, cross-border, real-time and emerging payment networks through a future-ready platform

Trusted to Handle Global Payments

10M

**payments transactions
processed daily**

15%

**of all international cross-
border Swift traffic is sent
over Bottomline rails**

Top 3

**Swift service bureau
globally**

That means you're partnering with a provider that already delivers the scale, reliability and resilience needed to support your global payment operations.
