

## Remind Payers About Invoices Without Switching Platforms

Dunning from Paymode is a new feature included in all existing Premium ACH and Virtual Card memberships

### Stop Manually Chasing After Overdue Invoices

Dunning from Paymode allows you to schedule proactive notifications for upcoming due dates and outstanding invoices. Scheduling these critical messages within the platform can improve cash flow predictability, reduce Days Sales Outstanding (DSO), and help maintain positive relationships with payers.

**Automate your reminders based on payer behavior, agreed upon terms, and payment timing, all inside the Paymode platform you already trust for payments. Included with Premium ACH and Virtual Card membership, Dunning campaigns allow you to schedule email campaigns so reminders feel professional and proactive.**

### Stop Chasing Payments Manually

Proactively schedule notifications once and Paymode will handle the cadence from there.

#### Reduce Days Sales Outstanding

Minimize the number of overdue invoices, stay in front of customers, and improve payment predictability.

#### Set Up and Schedule in Minutes

Create, customize, and schedule notifications with zero hassle within the Paymode portal. Once set based on timing, payment, and payer needs, you won't need to make changes unless terms change.

#### Protect Customer Relationships

Avoid tense communications by creating consistent, professional reminders.

## Coming Soon:

Look for Advanced AI-assisted Dunning for predictive reminders based on historical average days paid in Paymode later in 2026

## Ready to Enable Dunning?

Reach out to the Vendor Success team today to get started.
