Bottomline

Optimize Accounts Payable with Invoice Automation for Microsoft Dynamics 365

Many AP departments still rely on outdated, inefficient and paper-based processes. In doing so, they are limiting the AP team's productivity, delaying approvals of invoices, and exposing themselves to unnecessary risk. All of this hurts AP's perceived value to the organization, as just 19% of businesses currently consider their AP function to be exceptionally valuable.

Are you missing opportunities to better secure and streamline your AP processes? With the combination of Microsoft Dynamics 365's built-in capabilities and proven invoice automation technologies, you can take your AP team's performance to the next level while keeping your system of record up to date and making new processes easy for your team to adopt.

WITH INVOICE AUTOMATION, YOU CAN…

Bottomline

SIMPLIFY PROCESSES AND LOWER COSTS

With invoice automation, you can **streamline your operations and process invoices nearly 80% faster** by leveraging automated 2-way and 3-way matching capabilities and online exception handling.[1] In addition, **47% of AP professionals say their top priority is eliminating manual tasks**, something that's simple to do by accelerating invoice processing and approval cycle times. That frees up staff to focus on strategic activities.

Do you really want to keep wasting time on inefficient processes?

MITIGATE INVOICE FRAUD RISK

By the time you spot invoice or payment fraud, it can be too late to prevent financial and reputational losses. That's why **60% of AP professionals view enhanced AP as essential** to giving them the visibility they need to combat fraud, and why securing AP processes both inside and outside Dynamics 365 is so important to keeping fraudsters out.

Don't you want to avoid becoming another payment fraud headline?

INTEGRATE IN REAL-TIME WITH DYNAMICS 365

An immersive user experience within a Dynamics 365 workspace allows AP staff to work within their familiar screens, helps maintain a low cost of relationship, and eliminates the need to learn a new system.

Why not extend the capabilities of your Dynamics 365 investment?

Bottomline

GAIN VISIBILITY ACROSS YOUR INVOICE WORKFLOWS

For 48% of AP departments, **improving reporting and access to data is a critical priority,** one that can transform visibility for the organization. By storing documents more effectively, increasing transparency in processes, and generally creating smarter systems, better visibility is within reach.

Why not make visibility into invoices status a way of life at your organization?

FASTER APPROVALS MEAN FASTER PAYMENTS

Streamlining AP processes will accelerate approvals and help you pay your vendors on time, or if you prefer, early. This has the potential to unlock available early payment discounts, form preferential terms, and strengthen relationships with regular suppliers.

Why miss out on early payment discounts?

REALIZE END-TO-END AP AUTOMATION

Complete the end-to-end invoice-to-payment lifecycle and **generate positive ROI** by converting secure electronic payments, automating payment processes, and earning cash-back rebates on AP spend. With organizations realizing up to 75% savings by automating invoices and payments, the ROI speaks for itself.

Why not transform AP into a profit center?
