

Send and Track Invoices with Paymode's Premium Invoice Delivery

Emailing or mailing an invoice doesn't offer any visibility into whether a payer has viewed or downloaded your invoice. Paymode Premium Invoice Delivery, **a new feature included in all existing Premium ACH and Virtual Card memberships**, lets you deliver and track invoices securely to both in-network and out-of-network customers. Gain clearer visibility into invoice activity and support a more efficient path from delivery to payment.

GAIN VISIBILITY AND FASTER PAYMENT

Upload multiple invoices quickly and easily directly from your ERP whenever you need, or work on drafts to send later.

TRUSTED DELIVERY, FOR EVERY CUSTOMER

Invoices sent with Paymode's trusted name and secure links are delivered reliably and stand out, moving payers to act sooner.

STREAMLINED INVOICING, ZERO HASSLE

Upload invoices in PDF, JPEG, XLS, PPT, and a range of other formats. Use SFTP and eInvoice for Premium Invoice Delivery capabilities to streamline capture and reduce manual data entry.

TRACK INVOICES AT-A-GLANCE

Track invoice status in real time, from sent, delivered, opened, and downloaded.

PROFESSIONAL PRESENTATION FOR FASTER ATTENTION

Customize emails and create templates with your logo and messaging for a polished, consistently branded experience your payers know to look for.

AI Automates Invoice Data Capture

Eliminate the need for time-consuming manual data entry by replacing keystrokes with automated field capture from the invoice.
