

SWIFT CONNECTIVITY VIA
GLOBAL PAYMENTS HUB

Easily Connect to Swift Through a Single, Managed Connection

The Challenge

For multinational organisations, managing connectivity across multiple banks, geographies and payment formats can be complex, costly and resource intensive.

Typically, corporates need to:

Connect to multiple banking partners globally

Manage payments, cash reporting and treasury messaging

Support evolving standards such as ISO 20022

Control overhead costs of maintaining direct infrastructure (such as Swift access)

Improve visibility and control across banking relationships

The Answer

**Swift Connectivity
via Bottomline, fully
integrated with
Global Payments Hub.**

Gain seamless access to Swift, the world's leading financial messaging network, through a single managed connection, eliminating the complexity of operating and maintaining your own infrastructure while benefiting from Bottomline's industry-leading expertise and operational support.

Transform Swift connectivity into a catalyst for efficiency, resilience and growth

One Connection. Global Reach

Connect to multiple banks worldwide through a single secure connection, removing the burden of managing numerous bank integrations.

Fully Managed Swift Connectivity

Outsource the operational, technical and compliance complexity of Swift connectivity to one of the world's leading Swift service providers.

Payments, Cash and Treasury Coverage

Support a comprehensive range of messaging requirements including payments, bank statements, cash reporting and treasury operations.

Reduce Cost and Complexity

Eliminate the need to build, maintain and support dedicated in-house Swift infrastructure and specialist resources.

Future-Ready Connectivity

Support international standards, like ISO 20022 and evolving market initiatives through a scalable platform designed for change.
