PAYMENTS PROCESSING REPORTING

Simpler Payments Reconciliation and Improved Exceptions Management with Dynamic Reporting

The disjointed nature of Bacs reports makes it difficult for automated reconciliation of failed or disputed payments. Gaining meaningful business insights from technical Bacs file formats and Bacs data delivered as raw text is also particularly troublesome for finance teams.

From smaller mid-market companies to enterprises processing millions of payments per month, the lack of automated reporting and availability of data in desired formats, can result in missed cancellations and errors, negatively impacting efficiency and cash flow.

Why Choose Payments Processing Reporting

Increase Efficiency: Flexible reporting to reduce reliance on manual processes and spreadsheets for improved reconciliation and easier interpretation of Bacs reports

Improve Operational Processes: Custom queries can be built across multiple SUNs, reason codes and payment batches giving data in a clearer format, reducing the time and resource needed to interpret Bacs reports

Enhance Cash Flow: Dynamic, actionable reporting can identify failed payments, cancellations and amendments quickly for reduced notification delays and improved exceptions management

Reduce Compliance Risks: Central dashboard for efficient handling of indemnity claims or Direct Debit set up issues

Payments Processing Reporting from Bottomline lowers the cost and operational overheads of reconciling Bacs reports. It enables users to build custom queries, transforming Bacs data into clearer, consumable formats for simpler reconciliation.

bottomline.com

Why Bottomline is the Best Option for your Bacs Reporting

Easy Integration:

Connect directly to your ERP or billing system. Request exactly the data you need—no more, no less—using our GraphQL API

Fully Flexible Custom Queries

Create and save payment queries to suit your business for real-time business intelligence

Long-term Access to Bacs Data

Access to 90 days of Bacs data stored securely and an intuitive easy-to-navigate UI

Trusted Partner:

Bottomline is a leader in Bacs processing with 35 years of experience helping businesses with their payments

Payments Processing Reporting Transforms Your Bacs Reports into the Detail You Need
