

Flexible Cloud-Based Solution Ensures Secure, On-Time Payments

"I can use PTX anywhere. It is a very simple and easy to use system. The processing only takes 10 minutes."

- Rob Brewill
Finance Director

Challenges

- Original system was outdated and lacked flexibility within the tool to support growth
- The previous software was installed and reliant on a single PC device which caused inherent risk
- Concern of system delaying processing payments to employees and disaster recovery

Solution

- The PTX payments platform is a cloud-based Bacs and Faster Payments solution for UK payments and Direct Debit collections

Results

- Implemented modern Bacs payment system which has increased flexibility and will support future business expansion
- Anywhere access through cloud-based solution eliminated the need for dedicated PCs and individual software installations
- Eliminated worries of late payments to staff and disaster recovery
- Complies with latest Bacs security requirements
- Realized cost savings eliminating on-site servers
