

**SALFORD
VAN HIRE**

Salford Van Hire Keeping Payroll Simple with the Cloud

“What was attractive about PTX was that it would be continually upgraded without negatively impacting us. It was far superior to anything that we had seen. We also felt it was worth paying more for reliability and flexibility to cover things like security updates.”

- Mike Frost
Group Financial Controller

Challenges

- Previous on-premise payment software would no longer be compliant with Bacs security requirements
- System lacked user-friendly capabilities
- Keep up with security compliance and future changes in legislative requirements, including new electronic payment security measures

Solution

- Bottomline's cloud-based PTX Payments and Business Solution Suite
 - User-friendly system with enhanced transactional reporting and ensured protection
 - New system update without disruption to payroll payments

Results

- Easy upgrade path from old payment software
- Secure cloud-based solution for anytime, anywhere access
- No local IT management or support requirements
- Always complies with Bacs security requirements
- Supports direct and indirect bacs submissions
